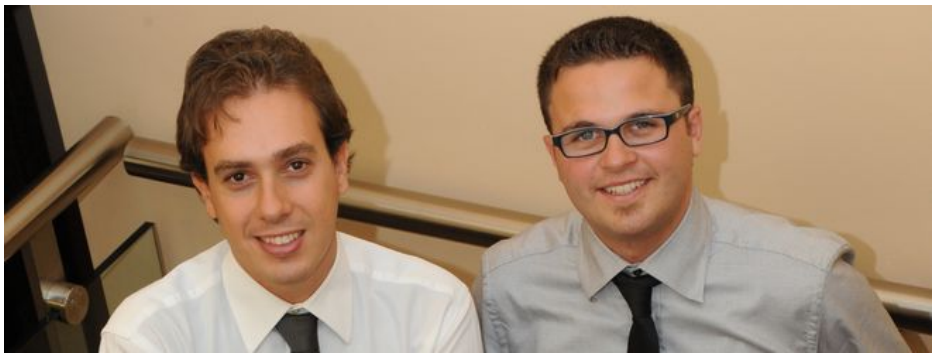
Turismok S.n.c. di Papagni A. & J. P. Tournoud



Turismok is a company which arises out of the passion for tourism of two young entrepreneurs who want to concentrate on marketing and managing tourism in the mountains.

The company provides assistance and advice for travel companies, taking them through all the stages along the route: business planning, strategic planning, training, operations assistance, and marketing.

The one great thing about this company is that the managers are so youthful and so professional.
