Le Coin du Bois di Rossi Martino

"Le Coin du Bois" is a small artisanal company whose strength lies in its creativity. All items are made of precious woods such as walnut, cherry, pear, beech, maple etc. The various types of wood are combined to create chromatic effects. Projects marry three important elements: environmental sustainability, creativity and yield.

The range of products in the catalogue is extremely broad and includes, for example, cutting boards from large to salami sized, trivets, coat hangers, dishes and knives for polenta, clocks, sugar bowls. As well as all the items listed in the catalogue, the company can meet any request from Italy or abroad.
