CHAMBRE VALDÔTAINE

## **Ditta Rossetto Ruggero Mario Maître Constructeur**

Rossetto works in the field of general metallic constructions, and our managing director is a qualified metalworker who is also extremely creative. For your information, it must be said that the company holds a European patent for aluminium locks, which are considered the latest technology and a good investment. They first went on sale in 2004.

We also make many different types of aluminium locks, as well as insulated boxes for plastic or aluminium roller shutters, and can make practically anything from lightweight sheet steel. We manufacture railings, gates, greetings, spiral staircases, and many different types of wrought iron garden furniture, as well as making and installing devices for opening and closing doors and gates, and providing all sorts of advice.
