

Marmoval S.r.l.

Marmoval is a company which, since 1994, is involved in the preparation and sale of marble, granite, and other stones from Italy and overseas, to meet our customers' needs. Our company, which has its own quarries, specialises in processing different types of building material such as stone and flagstones for roofing. We also make sinks, troughs, planters, window boxes, road pebbles, benches, and memorial stones.

At Marmoval we offer a vast range of products and items for building and other work. These include flooring, worktops, additions, bar benches, windowsills, chimneys, troughs, kerbstones, building blocks, and cemetery monuments. We are franchisees for the sale of FERRARI BK locknuts and Akemi roofing tiles.
