Acquatherm S.n.c

At Acquatherm we have many years' experience in the building and maintenance of swimming pools, kiddies' pools, water massage tanks, saunas, and Turkish baths. In recent years we have seen our work expand greatly to take in other sectors connected with swimming pools. Indeed we recently signed a series of agreements with some large solar heating and PVC waterproofing companies. Now we are able to install solar heating and biomass plant, and solar panels.

Acquatherm are the official partners in Val d'Aosta of PARADIGMA from Germany, European leaders in vacuum solar panels, and KWB, the leading biomass company in Austria.

Acquatherm was the first company in Val d'Aosta to specialise in alternative energies.
210 solar plan systems installed
46 biomass systems installed
