

Klinica S.n.c.

Our company is a help centre for hardware and software, to deal with any problems arising out of the use of a PC (doesn't work properly, needs something fixed, needs an upgrade or a placement or reinstallation); advice about the latest products and how to use them; customised after-sales service contracts; designing and installing wired and wireless networks.

Networks: optimisation, and running and installing local wired and wireless networks. Running and installing routers and firewalls. Assistance: technical and on-site and on-centre assistance and repairs. Contracts: assistance contracts for service within three hours of phone call, 24/7. Data recovery: saving and recovering data from faulty hard discs. Installation: maintenance, installation, and advice for operating systems, company management programs, vector graphics, and CAD. Virus protection: detecting and removing viruses. Providing special IT services for third parties.
