Monte Bianco Tlc

At Monte Bianco we have been working in Val d'Aosta since 1997, with the intention of bringing the upper valley to the internet and the internet to the upper valley (via the portal http://www.valdigne.com), using the free technology and software such as Gnu/Linux and other products that use this philosophy. Now we offer internet access for the price of a telephone call throughout Italy, on http://free.mbtlc.it and ADSL. Monte Bianco was the first company in Val d'Aosta to register .it domain names (mantainer MBTLC-mnt), and we offer many services including the management of databases so they can be updated very simply by users.

Registering .it/.com/.net/.org domain names. Making websites. Setting up internet and intranet networks. Setting up databases. Free DSL access.
