Hextra S.r.l.

Our main aim at Hextra is to provide top-quality goods and services to companies at a lower price than they can find anywhere else. Our data centre in Pont-Saint-Martin is connected to the internet by optical fibre, connected in turn to TOPIX in Turin. When requesting services from Hextra, you can be sure your data will be stored on an Italian server and not an American one, and although we are Italian the assistance we provide will never be late in coming.

Our services: Registering domain names, Windows hosting, Linux, Coldfusion, Professional email, Housing, certified email, Cloud Services (email, address book, calendar, and documents), Virtual Servers, Online Backup, Fax to Email, SMS via internet, Professional FTP services, E-commerce, Electronic invoicing, Digital signatures service, Software & Office Automation development, Smartphones App development (Apple, Android, Windows Phone).

Round the clock assistance 24/7
Extremely reliable services (>99% up time)
Partner of Watchguard, Microsoft, Adobe, Red Hat
No call centre – all our advice is provided by our own staff.
