

Valser snc

VALSER was founded in 1989, and the company immediately set itself the target of providing its customers with a series of exclusive systems in house fittings so as to provide a better quality of life in the home.

The company offers products selected according to parameters of guaranteed quality and reliability, and the latest technology, and our customers are exclusively qualified fitters.

As well as producing our own locks, we at Valser are also dealers for Internorm products.
