La Kiuva s.c.

The **La Kiuva cooperative**, based in Arnad in the Aosta Valley, was founded in 1975. The first delivery to the cooperative winery was in 1979, with 50.6 tonnes. Currently the cooperative includes **40 member-owners** who produce **100 tonnes a year**. This gives around **70,000 bottles a year.**

The whole process is managed, from the choice of the varieties and clones, to their positioning in terms of altitude and exposure, and angle, and going right to cultivation practices, leaf thinning and harvesting itself. Most of the grapes come from these vineyards, all of them of a small – or very small – size.

All the vineyards are located at an altitude of **between 380 and**

500 metres, with the white and aromatic varieties higher up, while lower down are the vineyards which produce for maturing in wood, with greater structure and body.

The **products** of the La Kiuva cooperative are:
