Peradotto Impianti S.r.l.

At **Peradotto Impianti S.r.l.** we have been working for almost fifty years in heating equipment and metalwork. Our main aim is to satisfy all our customers by providing top-quality service.

PLUMBING department

- **plumbing and heating, both domestic and industrial:** making traditional and up-to-date heating systems using renewable energy sources (biomass, solar heating, solar panels, and geothermal power), and giving advice on how to save energy.
- **public waterworks sector:** maintenance on pipes and irrigation systems.
- **work on water services to hydroelectric power stations and wineries**, especially using stainless steel and the latest automatic welding equipment.

METALWORK AND PLASMA CUTTING department
(all certified in conformity with European Branding Standard for Metalwork, as set out in Standard EN 1090)

- **metalwork department:** our company can make anything from metal, and we specialise in planning, making, and assembling structures for the hydroelectric sector (floodgates, grilles, rakes, etc.), for medium-sized building firms (bridges, shelters, mezzanines, fire escapes, safety exits, etc.), and light metalwork (railings, gates, fencing, etc.).
- **HD heat cutting department:** we use all the latest technology, including an HD heat cutter, which we use for all thicknesses of steel (certified), for indoor cutting, and for any other work our customers may require.

The following are **our strong points** at Peradotto Impianti: Seriousness, Professionalism, Reliability, and Range of Skills, with many years' experience, qualified personnel, and the most up-to-date equipment.

Certification awarded:
SOA attestation
Cat: OG6 Class. I (waterworks, gas pipes, oil pipes, and irrigation and removal work)
Cat: OS18-A Class. II (Steel Structural Components)
Cat: OS28 Class. II (Heating and Air Conditioning Units)

Our metalwork and HD plasma sheet cutting departments have both been awarded European Steel Structural Components certification according to Standard EN 1090.
