Vallée Trafor S.r.l.

At **Vallée Trafor** we started work in December 2013 on manufacturing **low-voltage static electric machinery.** Our products are made to order for customers/end-users in Italy and overseas, and are then installed in more complex machines such as UPSs or power supply units. Our factory is in the “Espace Aosta” industrial estate in Aosta.

Our main output is **static electrical machinery**, especially low-voltage transformers from 0.5 to 3000 kVA, and transformers for use in the railways, nuclear, security, and medical sectors. All our products have UL certification for export to the USA.

The company has integrated quality management, environment, and energy systems (ISO 9001:2008, ISO 14001:2004, and ISO 50001:2011 certification).
