## Pasticceria Artigianale Mauro Tessor & C. s.a.s.

Since its earliest days, **Pasticceria Artigianale Tessor**, founded in 1984, has endeavoured to satisfy its customers by choosing excellent quality ingredients.

Over the years many **new products** have created, **both sweet and savoury**, patisserie and products inspired by the Aosta Valley region **with local and regional ingredients**.

Given the high quality of these ingredients and of others such as harvested fruit, a special range of cakes and biscuits was created, available throughout the year, easy to preserve and maintaining the same quality.

The most noteworthy products include **Doucereinetta**, born from
