

## Knot S.r.l.

Knot is a **consultancy** which offers support to businesses:

- during growth,
- to increase profits,
- to improve organisation climate and staff motivation

Knot does not limit itself to proposing solutions to problems, but provides **practical support to the companies until they have reached their objectives.**

In this sense the activity can be defined as **strategic consultancy**: the services which are offered provide answers to companies making them stronger and more competitive by applying the best corporate practices of today.

Knot values the knowledge and experience of companies through operative tools, methods and instruments.
