

Coquillard Dario

Dario Coquillard was born in 1962. At the age of twenty he discovered a passion for wood and sculpture and for many years enjoyed these during his free time. In the year 2000 he decided to open a workshop whose main activity is the serial reproduction of sculptures.

His favourite subjects are animals, often portrayed in original and amusing attitude, mountain people and imaginary creatures such as elves and fairies, all carefully carved with great attention for detail.
