## Coronavirus: call per start up e PMI

The European Commission is calling for startups and SMEs with technologies and innovations that could help in treating, testing, monitoring or other aspects of the Coronavirus outbreak to apply urgently to the next round of funding from the European Innovation Council.

The deadline for applications to the [EIC Accelerator](#) [1] is **17:00 on Wednesday 18 March** (Brussels local time).

With a budget of €164m, [this call](#) [2] is "bottom up", meaning there are no predefined thematic priorities and applicants with Coronavirus relevant innovations will be evaluated in the same way as other applicants.

Nevertheless, the Commission will look to fast track the awarding of EIC grants and blended finance (combining grant and equity investment) to Coronavirus relevant innovations, as well as to facilitate access to other funding and investment sources.
