

Energy-related partnering opportunities

February 2025

Renewable energies

Technology offer TOGB20250210045

[An underwater inspection and maintenance robot for ships and offshore infrastructure](#)

Technology offer TOFR20250212008

[French company with innovative products extracting renewable energy to generate electricity is looking for distributors and industrial partners](#)

Business Offer BOUA20250124003

[Ukrainian manufacturer of fuel pellets from wood and sunflower husks, as well as an engineering company \(utility networks, power equipment\)](#)

Business Offer BOTR20250216001

[The Department of Energy Systems Engineering in this university, which is one of the leading universities in Türkiye, wants to increase research and development projects by creating collaborations.](#)

Research & Development Request RDRTR20250120008

[A SME that specialises in the manufacture of machinery systems and the design of processing and recycling technology is seeking to establish partnerships in the field of recycling end-of-life solar panels](#)

Research & Development Request RDRIT20250217020

[Italian company specialized in project design, proposal writing and project management is looking for partners to submit a proposal related to Interreg NEXT MED Call for Green Transition Projects, addressing Renewable Energy.](#)

Business Offer BOUA20250221020

[Custom Software Solutions for the Renewable Energy Sector: Real-Time Monitoring, AI-Powered Analytics and Energy Optimization for Solar, EV Charging, IoT and MRP Systems to drive efficiency, sustainability and cost reduction across the Energy Value Chain](#)

Business Offer BORO20250211026

[A company from Romania offers for innovative distribution and sale eco-friendly Biowood Pellets](#)

Business Offer BOTR20250221014

[Turkish SME specialized in renewable energy , automotive, defense and aviation sectors searching for commercial agreements](#)

Technology offer TODE20250226007

[Innovative German SME provider of Concentrated Solar Power \(CSP\) solutions is looking worldwide for distributors or sales partners with a special focus in target markets such as Spain, the USA, and emerging economies](#)

Other topics (energy conservation, storage, distribution, etc.)

Technology offer TOIN20250203011

[Indian company converting non-recyclable plastics, RDF, biomass to biofuel and green coal seeks partners for delivering sustainable waste management and waste-to-energy solutions.](#)

Business Offer BOTR20250117010

[A Turkish company, operating in the heating industry, provides project-based solutions in both industrial and domestic heating systems and seeks partners to offer high-quality products developed with innovative technologies](#)

Technology offer TOIN20250206010

[Indian company offering AI-powered platform engineered to help companies achieve sustainable, net-zero operations/ESG goals looking for customers and partners](#)

Technology offer TOGR20250210009

[Cutting-edge tool for real-time hygrothermal analysis of buildings' elements offered by Greek cluster for commercial co-operation in the form of licence agreements with technical assistance](#)

Technology offer TOES20250212009

[Spanish startup specialized in green H2 seeks consortiums for topics HORIZON-JU-CLEANH2-2025-03-01 Clean Hydrogen Partnership call 2025, to develop and test H2 storage, last mile distribution and plug and play refueling capsules for mobility and logistics.](#)

Business request BRPT20250217019

[Portuguese SME is searching for IoT hardware providers for business collaborations](#)

Business request BRNL20250226006

[Award-winning energy storage technology by innovative Dutch company looking to scale up.](#)
