

Energy-related partnering opportunities

March 2025

Renewable energies

Technology offer TODE20250305023

[German software developer offering solutions for heat pump companies seeks sales partners in Europe](#)

Technology offer TOTR20250306005

[Turkish technology company offers innovative renewable energy and electric vehicle charging solutions.](#)

Technology offer TONL20250310023

[Dutch company specialized in wave energy converter \(WEC\) for offshore renewable energy solutions is looking for partners active in the maritime sector.](#)

Technology request TRIT20250307007

[Italian airport is looking for innovative solutions that allow prior assessment of electromagnetic interference caused by photovoltaic panels in airport infrastructures](#)

Business Offer BOGB20250314016

[UK company specialising in windfarm project analysis offers SaaS platform which provides bankable accuracy for energy yield assessments in minutes. Seeking partners for commercial agreements.](#)

Business Offer BONL20250321019

[European renewable energy company seeks investors and private equity firms for expansion](#)

Other topics (energy conservation, storage, distribution, etc.)

Technology request TRIT20250306012

[Italian regional airport is interested in experimental projects for the development and deployment of batteries with a sustainable production cycle and gradual, slow energy discharge](#)

Research & Development Request RDRTR20250311002

[Partner Search for EUREKA for international R&D projects between Türkiye and Spain call - Digital Battery Passport Integrated BMS for Energy Storage Systems \(e.g. BESS, EVs\)](#)

Technology offer TODE20250310016

[Innovative industrial flue gas cleaning technology including energy recovery – SME seeking investors and industrial partners for pilot project in cement and other industries](#)

Business Offer BOPT20250317027

[Portuguese company offering a new technology to replace lead-acid batteries in heavy commercial vehicles is looking for new partners in the EU, for pilot installations or commercial agreement](#)

Business Offer BOPL20250318006

[Advanced home energy storage solutions](#)

Business Offer BOUA20250322001

[A Ukrainian company specializing in innovative energy-saving technologies for the hospitality industry is seeking partners to implement and test their advanced energy management system.](#)

Business Offer BOCY20250319007

[Cypriot SME specializing in innovative solar cooking ovens seeks distribution and commercial partnerships](#)

Technology offer TOES20250318020

[Method for Estimating the Operating Regime of a System Based on Its Electrical Consumption Signature](#)

Research & Development Request RDRES20250320017

[Award-winning Spanish startup specialized in green H2 requires Eurostars partners to develop and test H2 storage, last mile distribution and plug and play refueling capsules for mobility and logistics \(Eurostars Call September 2025\)](#)

Technology offer TONL20250312011

[Dutch SME offering custom software solutions for monitoring and maintaining cooling and refrigeration installations is looking for partners](#)

Technology offer TOGB20250326011

[Smart infrastructure management through a complete and silo-free single dashboard](#)

Technology offer TOSI20250327018

[A Slovenian company and a Slovenian technology center developed a system of elements that enables better energy efficiency in existing heating installations, and are looking for investment agreement.](#)

Technology offer TONL20250328006

[Iron fuel startup seeks partner for siting industrial production facility with hydrogen access](#)
